this volume breaks new ground in approaching the ancient economy by bringing together documentary sources from mesopotamia and the greco roman world addressing textual corpora that have traditionally been studied separately the collected papers overturn the conventional view of a fundamental divide between the economic institutions of these two regions the premise is that while controlling for differences texts from either cultural setting can be brought to bear on the other and can shed light through their use as proxy data on such questions as economic mentalities and market development the book also presents innovative approaches to the quantitative study of large corpora of ancient documents the resulting view of the ancient economy is much more variegated and dynamic than traditional primitivist views would allow the volume covers the following topics babylonian house size data as an index of urban living standards the old babylonian archives as a source for economic history middle bronze age long distance trade in anatolia long term economic development in babylonia from the 7th to the 4th century bc legal institutions and agrarian change in the roman empire papyrological evidence for water lifting technology money circulation and

monetization in late antique egypt the application of social network analysis to babylonian cuneiform archives price trends in the ancient near east and mediterranean in the hellenistic and roman periods as well as the effects of locust plagues on prices

reprint of the original first published in 1875

measuring history complements the cases presented in wise social studies practices yeager davis 2005 yeager and davis highlight the rich and ambitious teaching that can occur in the broad context of state level testing in this book the chapter authors and i bring the particular state history tests more to the fore and examine how teachers are responding to them at the heart of measuring history are cases of classroom teachers in seven states florida kentucky michigan new york texas mississippi and virginia where new social studies standards and new and generally high stakes state level history tests are prominent in these chapters the authors describe and analyze the state s testing efforts and how those efforts are being interpreted in the context of classroom practice the results both support and challenge prevailing views on the efficacy of testing as a vehicle for educational reform catherine horn university of houston and i lay the groundwork for the case studies through a set of introductory chapters that examine the current environment the research literature and the technical qualities of history tests
